	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

*If your cat is well they should be interacting normally, eating, drinking and not vomiting, losing weight unexpectedly or sleeping more than usual.

If your cat has ketones present in their urine or seems unwell at any time then stop Senvelgo® and contact your vet immediately.

*Want more tips on managing your
cat's diabetes with Senvelgo®?*
